

English

Fly Eagle Fly

A charming tale from Africa which tells the story of an eagle's adventures. We will be asking the question, What are you - a chicken or an eagle?

How to Live Forever!

All learning will be based on this story where we will be walking through the libraries around the world alongside the main character to find

Humanities

Geography: We will be learning about violent volcanoes, discovering how they work and the effect they have. Have a look at DT to see what else we will do!

History: we will be learning about the Ancient Egyptians! We will discover how they communicated and what they believed. We will also be learning how children's rights have changed since this time.

Art

Clay is our new topic for Art. The children will be looking at buildings and structures made from clay and then attempt to make a miniature version!

PSHE

This term, the children will learn about conflict resolution. They will also be learning about the environment around them and how they can look after it.

Year 3 Spring Term 2019

Science

Food and our bodies.

We will be learning the names of key bones in the body and learning about how to make our lifestyle healthier.

Opposites Attract

We will be performing many experiments to test magnetic attraction. We will also try our hands at creating magnets.

Maths

We will continue to build on our skills of multiplying and dividing. We will be applying these skills to solve real life problems.

As well as this, we will be learning about money and looking at statistics.

PE

The children will be getting a dance coach in for the spring term for their contemporary dance unit. In outdoor PE, they will be learning the skills for net and wall games as well as developing their orienteering skills!

DT

The children will be evaluating different dips and will prepare different vegetables and learn skills such as grating and chopping. This will end in designing their own dip!!

RE

We will be starting our new topic about where, how and why we worship. In particular, we will be looking at Christianity, Judaism and Hinduism.

Computing

The children will be extending their knowledge of online-safety and being careful when using the internet. They will also be researching different types of video camera techniques and looking at film-making skills, for our unit, 'We are Presenters'.
