March 2019

Dear Parents and Carers,

It's nearly STEM week!

STEM week (18th -22nd March) is a fantastic opportunity for all of Parkhill Junior School to develop their science, technology, engineering and mathematical skills, in real-life, problem-solving situations!

This year, each year group will have a different real-life problem to try and solve:

Year 3 will be studying pollution, going on local area visits to measure how many cars are on the streets (*ask your child's teacher* if you want to help with this 30 minute outing.)

Year 4 will be discovering the perilous plight of the bumble bee and will be creating habitats to help them.

Year 5 will be correcting the water crisis by working out how to clean water; as well as learning about those children around the world without access to clean water.

Year 6 will be learning about natural disasters and how we can protect ourselves; thinking about earthquake-proof buildings and volcano-avoiding houses.

Please ask your children about their learning and be prepared to be amazed!

Enjoy learning,

The STEM Team

Mr Bawtree, Miss Sprenger, Miss Chowdhury and Mr Hansen
