Day 2: Write your story.

Day 3: Edit and enhance your story.

Day 1: Planning your story

Use bullet points in your planning... one or two ideas... more than one word.

Who / what are these things that are approaching? Are the people right to be wary?

How many of them do you think they are?

Where have they come from?

Which character is telling the story?

How will people deal with this 'threat'?

Who controls the airships?

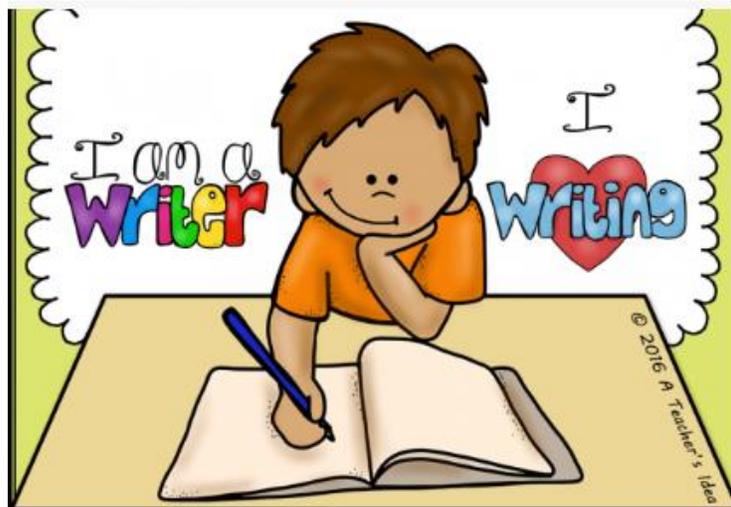

Complete these boxes, so that you provide more detail for the readers.

Description: Sights, Sounds, Smells, Feelings?

Action: Something exciting happens...!

Dialogue: Characters say something...! Do they shout, scream, wail, whisper?

Day 2: Time to write your story. Enjoy writing!

Day 3: Time to edit and enhance your writing.

After you have written your story. Watch this video to help you develop your skills with editing. Rewind it when you need to and watch it more than once to help you understand even further. <https://www.youtube.com/watch?v=CUScPnDwzPU&t=25s>
