Dear Parents and Carers,

Over the next half term, we will be holding maths workshops, which will be carried out by our resident maths expert, Nikki Martin. The workshop is designed to help parents and carers gain a clearer understanding of what maths looks like in Parkhill Junior School. You will be given the opportunity to work with your child to complete maths puzzles and investigations.

Nikki Martin will be able to provide support and advice on how you can best help your child with their maths learning at home and to consolidate their understanding, as well as enabling you to answer any questions your child may ask and be able to recognise and address any misconceptions they may have.

The workshop will be offered to two classes at a time. There is a limited number of seats available and it will be on a first come-first served basis. **Please follow the link below to reserve the seats, for your child's workshop.** Please refer to the dates below to ensure you select the correct workshop.

**3O and 3S - Tuesday 14<sup>th</sup> June 2022**
